

Environmental Policy Statement

We recognise that environmental issues are of fundamental importance both in their own right and as part of a successful and responsible business strategy. Therefore, we are committed to ensuring that the environmental impact of our operations will be minimised by preserving, protecting and improving the environment, and by the prevention of pollution.

As Managing Director I am ultimately accountable for GBM's environmental performance, with responsibility for implementation being delegated through line management. I will ensure that the necessary resources are made available to achieve successful environmental management throughout the business.

GBM will continue to undertake a full analysis of all its environmental aspects and impacts, in order to develop a comprehensive environmental management system. This system will then be used to ensure, as a minimum, that legal requirements are met, along with industry best practice and the Company's own standards. In addition, this analysis will also allow the setting of specific targets and objectives in order to ensure ongoing continuous improvement.

GBM will ensure that environmental considerations are taken into account throughout its sphere of operations and in doing so expects the full co-operation and commitment of its staff, employees, sub-contractors and suppliers in meeting the requirements of this Policy Statement.

GBM will undertake a complete formal review of the environmental management system annually. This annual review will include for the measurement of progress against set targets and objectives.

A copy of this Policy Statement will be prominently displayed at each of our work sites and offices, and will be made available to any interested parties.

S. Grantham

Managing Director
